VIA FACSIMILE 571-273-0845**AMENDMENT REQUESTED BY EXAMINER**

Sir:

As requested by the Examiner in a telephone conversation on February 2, 2005, Applicants submit the following claim amendments and remarks. Based on the discussion with the Examiner, Applicants believe that the amended claims are in condition for allowance.

Because the instant amendment was expressly requested by the Examiner, it should not affect any term adjustment for the instant application. "37 CFR 1.704(c)(8) does not apply to a supplemental reply or other paper that was expressly requested by the examiner. If an amendment is requested by an examiner, the examiner will have the paper processed so that it is included as part of an interview summary or examiner's amendment and not a separate paper for PALM to flag in the patent term adjustment calculation." M.P.E.P. § 2732 at 2700-20. Accordingly, Applicants respectfully request that the Examiner have the instant paper processed so as to be included with the Examiner's interview summary, rather than being indexed as a separate paper in PALM.

Please amend the application as follows:
